The East College Park Infrastructure Project encompasses an area bounded by Hill Street, Oakwood Avenue, Raleigh Boulevard/Waldrop Street, and New Bern Avenue/Boyer Street. The East College Park Infrastructure Project will involve removal and replacement of live infrastructure systems including: water, sewer, storm drain, sidewalks, grinding and paving, street trees, curb and gutters, and private utility coordination, as well as grading and erosion control. The work includes jacking and boring at the intersection of Oakwood Avenue and Raleigh Boulevard to tie in a new water line. The work includes but is not limited to all piping and valves, grading and paving, sedimentation and erosion control, compaction, and private utility coordination (including but not limited to PSNC, AT&T, Time Warner Cable, Duke Progress Energy, and Google Fiber). The project will include approximately 1,300 linear feet of stormwater pipe, 10,000 linear feet of water pipe, and 7,000 linear feet of sewer pipe.

A mandatory pre-bid meeting will be held on Thursday, December 17, 2015 at 10:00am at 310 W Martin Street, Suite 101, Raleigh, NC 27601. Bids are due on Thursday, January 14, 2016 at 3:00 pm at 310 W Martin Street, Suite 101, Raleigh, NC 27601.
